PRESS KIT

Big River, 2 words soon introducing the audience in the sound dimension of this show, conceived as an innovative live set, made of guitars, lapsteel guitar and rhythm built through the use of loopstation, stompbox percussions and a bit of use of electronics. Experiencing their own way of playing live in various contexts, the duo band builds and consolidates over time a warm and welcoming sound, devising their own idea of musical entertainment: the right mix of intimacy and fun.

“A contemporary alternative country, between tradition and experimentation, played with the use of loopstations and synths in addition to the classic instruments of the genre.”

After years of intense live activity through Italy and Europe, the band realizes a first work named **“Live Experience..2017”**, in which proposes 13 cover songs arranged in his own sound.

Over time, the search for a musical style inspired by great American music telling stories taken from our daily life leads the duo to compose unpublished songs for which they also make videoclips.

This musical journey is collected in **“Girl With Nails Painted Black”**, the first EP of unreleased songs.

In 2022 the collaboration with Thunder Music Group begins, and the single **“Ride My Beer”** is released worldwide.

During 2023, with the support of the A-Z Press agency, the band publishes the new single **“Beers In The Garage”**, a completely brand new experiment whose electronic part is curated by Fabio *“Bronski”* Ferraboschi at Buskers Studio (MO).

In 2024 a second album of unreleased songs titled **“Mustang Hood”** is out, anticipated by the single **“When We Dance”**.
